THE performance of Wallaco's ever-popular opera, 'Maritana,' attracted a large audience to the Thentre Royal on Saturday night. The work is one well suited to bring out advantageously the vecal and histrioni talents of Miss Plaisted and Mr Barding, the two leading members of the company, and as they had the co-operation of Mr Grace, as Don Jose, Mr Laing se the King and a strong chorus of local amatours, a very enjoyable performance was assured. Miss Plaisted was thoroughly at home in the part of Maritana. The music, in ordinary circumstances, would present no difficulties to so accomplished a vocalist as she is, but on this occasion, suffering as she was from a throat affection which made singing of any kind an ordeal, the task she undertook was by no means a light one, and she deserves all the more credit for the cuccess with which she ac-The D. This action does not meet with the approval of the members of the legal profession, who have decided to support the Employers' Union in the same way as the Chief Justice has chosen to support the Trades Hall, namely, by a donation of £50 weekly. The action of the Chief Justice has aroused a feeling of deep resentment calculated to have a contrary effect to what was intended. Many people are more than ever inclined to continue the struggle as a protest against what they regard as unwarranted dictation. HANSOMS FOR BOMBAY. - One of the home papers states that two Anglo-Indian gentlemon in London are proparing to float a Limited company at home to supply Bombay with Patent Hansom cabs in order to banish from the acone for ever the comfortless vehicle which has been evolved our of the wretched buggy which we were unpleasantly familiar with a few years back. The news seems almost too good to bo true, but nothing at all appears to be known about the proposition on this side. The Hansom, it is stated, is to be after the new Shrawabury style, the vehicle having a a door on each side in front of the vehicle, and the driver sitting, not as in the ordinary hansom, which was found a great drawback in hill climbing here, but in front, between, or rather over, the two lateral doors. For evening use the tor, which is hinged and folds back, can be opened like the top of a landau. We trust to hear more of this, and, if it comes about, we may hope that the promoters will fare better than Mr. Weber did here some seven or eight years ago. Mr Weber was, in his way, a public benefactor. He changed the Bombay buggy into the Bombay victoria, and had he started with sufficient capital his carriage company would have been a great success. Should the process of development go on from the victoria to the Shrawsbury, the promoters should bear that lesson in mind. There is a fortune in store for any one who can provide Bombay, a city of a million people, with good vehicles, but he must have ample funds behind him. -Times of India.

The Paris Répue Economique states that General Tohong Ki-tong has received orders from the Chinese Government to place a loan of f.250,000,000 on the Paris market. We hear no confirmation of this, and do not credit the report.

The East Siberian Trading Company held on Sept. 30 its last meeting of shareholders, Mr F. Nagel being in the chair. The final report was read and was agreed to. A motion brought in by a shareholder to appoint a new board was lost, and the existing board discharged. The East Siberian Trading Company has thus cessed to exist.

Our Hamburg correspondent writes :-The German iron masters all round report a very bad business, with small sales and orders of no importance. . The high quotations prevent the market becoming active. and therefore a reduction of prices bas already been resolved upon. The union of South German rolling mills has lowered its quotations to m. 125, and the large union of rolling mills, which comprises all the rolling mills in Germany, is also about to lower its present quotation of m. 140. Our Hamburg steamship lines trading to the Far East are complaining that people in China and Japan are not willing to take German fron at present quotations, and that therefore a great part of the usual cargoes is wanting.

ESTIMATES. Mr Ryrie-Your Excellency, I beg to give notice of a motion-I understand I can't put lively interest in the Appropriation Bill which has recently been submitted to us,

As there are Council I will move-That the Government several considerable amounts by which the lay on the table a full report of the proceedexp nditure will be increased, while our lings of the Law Revision Commission apfinancial position is not quite so brilliant as | pointed on 12th August, 1842 to prepare we thought it was a year ago, they consider and report upon drafts for the revised it would be very desirable that they should edition of the ordinances and for the amuse overy precaution in supervising the endment of the same, incorporating the reexpenditure of money, and I think your sults of such recent imperial legislation as Excellency will agree with them in that re- appears applicable to the circumstances of parment : spect. The

motion will be duly acconded. His Excellency-I may mention to the hon, member who has just given notice of his motion that under rule 14 of our Standing Orders any motion the urgency of which is admitted by the President and two-thirds of the members may be made without notice being given at a previous rule 13, it cannot be made without such notice. In regard to the notice the hon, of 1887. member has given, I may say I am very desirous, at Lam sure we all are, that the estimates should be considered as quickly as possible, but I do not wish to any extent to hurry them through the Council nor do I wish the anofficial members to go into the different items without being fully, prepared to do so. On the other hand we must remember that we are the middle of November, and,

I mentioned a short time ago, the estimates should reach the Secretary of State before the end of this year at the latest. The motion of which notice has been given-I am making these observations in order that there may be no minunderstanding between the Government and the unofficial members -appears to me to propose substantially the same system as I believe exists in the Straits Settlements in regard to the cetim. ates; that is to say that the estimates are not considered in public by the Finance Committee as is done here, but they are considered by the unofficial members of Council, assisted I believe by an official member-as a rule probably the Colonial Becretary. Now if the unofficial members desire that that system should be had recourse to here. I must say I do not see what objection the Government can raise to such a course. But it is not pessible to have the estimates in charge of two committees at one and the same time. They are now in charge of the Finance Committee and it is proposed they should be referred to a special committee with the view of obtaining information in this afternoon :regard to certain matters. The gist of the motion is that they be referred to a special committee, and that will mean a reference to a special committee in lieu of the Finance Committee. It is of course a question for the unofficial members how best they can attain the objects they have in view. As to the question of the military contribution, which is also referred to by the hon, member, I cannot see what particular reason there is to discuss it otherwise han in public. I have lately received the Act as now passed. Certain changes have been made in it; and I think it is just as well we should make these changes in our Bill, in order that our law may be the same as that in force in England. I have not yet had time to make these changes and therefore I move that the third reading of the Bill, set down for to-day be adjourned to Monday next, when the Bill will have to be recommitted.

Mr Orango had gone away on a year's and subsequently resigned; Mr Malach was also absent on seven months' Mr Cooper, in addition to his provious duties, (which were certainly as much as one Engineer could efficiently perform) had been appointed Acting Surveyor General, and after my arrival noted as Assistant Surveyor General. Me Sampson resigned his appointment about the time of my arrival. Mr Drury and Ma Sample were at the time young men recently appointed who had hardly the experience mecessary to fit them for the more res quaible posts that fell vacant. It will therefore be seen that on Mr Copper and myself practically devolved the duties of the six principal technical appointments of the Department. To add to our difficulties

PUBLIC WORKS ESTIMATES FOR 1891.

REPORT BY THE SURVEYOR GENERAL, The following are extracts from a document laid on the table of the Legislative Council this afternoon :-

Surveyor General's Office.

Hongkong, 14th August, 1890. Sir .- In accordance with the instructions contained in your Circular, No. 33, of 20th June last. I have the honour to forward berowith the Estimates for Public Works for the year 1891. I have endeavouredthroughout to conform to the instructions contained in the Colonial Office Circular Despatch of 4th Rebruary, 1890. I have endeavoured, so far as possible, to supply these deficiencies, and the following notes will explain why, as regards pertain items. I have been unable to prepare detailed Estimates. I now propose in the Estimates to provide for additional to deal with the Estimates, item by item. ORDINARY OR ANNUALLY-RECURSENT WORKS.

The total Estimate for recurrent expenditure has been increased from 3110 000 to \$113 500. This increase of 83,560 must, I think, be considered as very moderate, when the increased number of Government works and buildings, and of now streets and roods, is taken into ne-

A change of site has been decided on and the demands of the Colony having increased, more extensive accommodation has \$150,000 in the Estimates, but this must been provided than was originally contemplated. This accounts for the increase in the Estimate. The strking drawings are now in course of preparation, and it will. I think, be found that the amounts inserted in the Estimates will be a close ap-

If the recommondations of the Committee, that all the washing of the city shall be done in Public Laundries, is carried out, it will probably be necessary to expend a larger amount than that now recommended. Until, however, the establishment of Public Laundries has advanced beyond the experimental stage, I would suggest that the expenditure be limited to the amount proposed.
